DEATH OF CLOVIS PRATT

York County Authorities Are Making An Investigation

South Berwick, May 22.—There is a story going the rounds here today that an arrest has been made for the murder of Clovis Pratt in the northwest corner of the town of York, at the time of his disappearance four years ago. The story of an arrest is unconfirmed and there is reason for believing that the report is premature.

The alleged confession by a prisoner named Collins, now in the York county jail at Alfred, is understood to be to the effect that Pratt and another man were having a fight, and Pratt had the other man down when a third party swung an axe into his head, and that the body was buried in the woods. The man who is said to have made the con-

fession is stated to have been a witness.

The rumor of an arrest comes in connection with the visit of York county officials under direction of Sheriff E. H. Emery to the scene. They are making an exhaustive inquiry and have not, as far as can be definitely learned, revealed any of the information which they have obtained.

The section is heavily wooded and the exact location of the crime, if there was one, has not been made public.

PYTHIAN SISTERS AT DOVER

Dover, May 22.—A school of instruction for district No. 2, Pythian

Sisterhood, was held here on Friday. The district includes Exeter, Somersworth, Rochester, East Rochester and Portsmouth, in addition to the local organization, and each of the out-of-town orders were well represented.

The ritualistic work was exemplified in the afternoon by the Portsmouth and Exeter temples, while the conferring of the grand temple degree was done at night by Calanthe, the local temple.

FOR NEW HAMPSHIRE MURDER

Keene, May 22.—The murder for which David Stevens, who was arrested in Rumford Falls, Me., on Friday, is wanted, occurred in Walpole, about fifteen miles from this city, about a year ago, the victim being Daniel Phillips.

The two men are said to have been drinking in a Walpole saloon, and later Phillips was found lying beside the road suffering from wounds on the head, apparently caused by some blunt instrument. He was taken to the hospital, where he died a few days later.

The Goldenrod, York Beach, will open for the season May 20th.

KITTERY LETTER

Two Good Dances Friday Night

Odd Fellows Worked the Royal Purple

Improvements on the Electric Railway Roadbed

The Men At Fort Foster Getting Much Rifle Practice

Kittery, Me., May 22.

At the Second Christian church on Sunday the order of services will be as follows: Preaching at 10.30 a. m. by the pastor, Rev. Edward Hallett Macy; subject of sermon at that time, "The Essentials of Faith," followed by the regular session of the Bible school. The Junior League will meet in the vestry of the church at 3 p. m., led by Miss Estella Kraemer. The six o'clock service of the Christian Endeavor society will be led by the Misses Margaret Jackson and Josephine Waite and will be a union meeting with the Juniors. The subject of the meeting will be "Lessons from the Birds and Flowers." At the seven o'clock service the pastor will take for the subject of his sermon, "The Return of the Wanderer."

Riverside Lodge, Independent Order Odd Fellows, will hold the regular meeting on Monday evening in Wentworth hall, at which time there will be initiation of candidates. Encourage the young folks along by attending their candy and picture sale in the Wentworth school building this evening at 7.30. An entertainment is to be given. No admission.

A rehearsal of the Memorial day double male quartette was held last evening at the parsonage of the Second Christian church, under the auspices of Miss Millie A. Damon.

Mrs. William Waldron of Otis avenue is confined to her home by illness.

Tonight in Odd Fellows hall the degree staff of the Rebekah lodge will have a drill under the direction of Mr. George Marden, at 7.30 sharp. The services at the Second Methodist church on Sunday will be in their usual order, with preaching at 10.30 a. m. by the pastor, Rev. Daniel Onstott. Sunday school at 12. At the five o'clock vespers service the pastor will have a short sermon and Mrs. Percival Rogers and Miss Hattie Langton will sing two duets. Regular meeting of the Epworth League at six o'clock.

The duets at the vespers service will be "Adore and Be Still," by Gounod, and "Invisible Land," by Leslie. The benefit fair and dance given by the senior class of Traip Academy on Friday evening in Wentworth hall was very successful and there was a good attendance. Music for dancing was furnished by Lutta, Donnell, Landers and Wiegner. A good sum was realized to be used later for graduation expenses.

The royal purple degree was conferred on candidates Friday evening at the regular meeting of Dirigo Encampment, after which ice cream and cake were served. Repairs are being made to the sidewalk in front of the residence of Mr. Richard W. Fernald of the Rogers road, something that has long been needed.

Miss Adeline Paul of South Eliot has been the guest of Mr. and Mrs. Frank E. Donnell of Central street, Kittery.

Mr. and Mrs. William M. Upton, who have been visiting Mrs. Upton's grandparents, Mr. and Mrs. Frank E. Lawry, for ten weeks past, returned today to their home in Limerick. Frank, a brother of Mrs. Upton, accompanied them for a short visit.

Capt. Thomas F. Crawley sailed Friday in the sloop Mystic Belle for Gloucester, where he will pick up a crew and proceed south mackereling.

Barge Indiana finished discharging her cargo of coal at the navy yard today.

There was a large crowd at the H. G. L. club's dance in Frisbee's hall on Friday evening, and another will be given in the near future. Music was supplied by Horace Rowe. At intermission punch was served.

William Ballantyne, a strange face to the court, was up for drunkenness today. His case was placed on file on agreement that he keep out of court.

recently been the guest of the Misses Annie and Nettie Hanson at their home on Love Lane.

Extensive repairs are being made to the roadbed of the Atlantic Shore line. From Newmarket street the work has already progressed as far east as the Second Christian church. At Dirigo Encampment Friday evening visitors were present from S. Berwick and Portsmouth.

What, with the Royal Purple degree in the lodge hall and the fair and dance in the main hall the Corner was a lively place on Friday night.

Mr. S. Augustus Jackson is now about the oldest in membership, of the Good Templars, anywhere about, having been connected with that order about forty years.

Though planting is delayed, yet green peas are seen above ground. Lilies are extremely improbable for Memorial day.

The music of the various bands on the preservation is heartily appreciated by all. We hope that on "Memorial Monday" bands, soldiers and sailors will help add to the celebration always a feature in Kittery. The school children, under the direction of Superintendent Burnham, have begun to drill.

Kittery Point

The benefit sale, entertainment and dance given by the senior class of Traip academy in Wentworth hall Friday evening was a huge success in every way. Splendid music was furnished by Lutta, Donnell, Landers and Wiegner. Expenses were more than cleared at the door alone.

A company of 100 bluejackets from the battleship New Hampshire passed through here twice Friday morning on a hike toward and from York. They made a splendid appearance and attracted much attention.

The British bark W. W. McLaughlin, which was at this port in January, has been totally wrecked on the west coast of Africa.

Capt. William C. Williams, keeper of Boon Island light, and wife, have returned from a three weeks' visit in Fall River, Mass. They will embark for the island when an opportunity offers.

For several days past there has been an incessant popping of musketry from Fort Foster, where soldiers and jacksies from neighboring reservations have been engaged in rifle practice.

There arrived today schooners Neil P. Walker, Crocker, Boston for Bangor, and Henrietta Simmons, Darby, Gloucester for the Kennebec Friday the tug Portsmouth came in with the barge Greenland in tow, loaded with lathes from Portland for Boston. Tug Britannia of Bath, a new visitor here, arrived and took in tow the barge Harvard for Bangor to load ice.

Schooner Gardner C. Deering sailed for Philadelphia.

After a long term of service Henry Blake will soon conclude his duties in Frank T. Clarksons' store.

Mrs. Mary J. West, who has passed the winter in Medford, Mass., has returned to her home here.

John Thaxter is mourning the loss of a valuable cow.

Haven Riley is confined to his home by illness.

Raymond Tracy of Eliot has taken up his abode with Mr. and Mrs. Nathaniel C. Nutter.

Mrs. Victor E. Morse of Shapleigh, Me., widow of a former pastor of the Free Baptist church here, is visiting in town.

Merle S. Bond, an employee of the Massachusetts General Hospital, arrived today from Boston and continued immediately with his sister, Miss Mary E. Bond of Freeport, Me., where they are called by the death of a relative.

William Morse of Stratham, N. H., is the guest of Mr. and Mrs. Frank E. Donnell of Central street, Kittery.

Mr. and Mrs. William M. Upton, who have been visiting Mrs. Upton's grandparents, Mr. and Mrs. Frank E. Lawry, for ten weeks past, returned today to their home in Limerick. Frank, a brother of Mrs. Upton, accompanied them for a short visit.

MAN UNDER RAILROAD TRAIN

A Shoemaker Lost His Right Leg At Dover Street Today

Early this afternoon a young man, named Stephano Willino, employed at the Gale Shoe company, met with a serious accident in the Boston and Maine railroad yard near the foot of Dover street.

The story is that Willino was riding on a west bound freight train

with the intention of getting off at the shoe shop. When the train was nearing the building he jumped and his right leg went beneath the wheels and was cut off just above the ankle.

He was sent in the ambulance to the Cottage hospital where Dr. Berry rendered medical aid.

The Funeral Services over Mrs. George A. Tobey

H. P. Spinney and Family Are in Town from Chelsea

Eliot, Me., May 22.

The funeral of Mrs. George A. Tobey was held at the house on Friday afternoon. Elder George W. Brown conducted the services and spoke to a large gathering of sorrowing relatives and neighbors. Many floral tributes bore evidence of the esteem felt for her who was gone. She was laid to rest in the family cemetery. Undertaker H. W. Nickerson being in charge.

Mrs. H. P. Spinney and son Norman from Chelsea, Mass., are with her parents, Mr. and Mrs. Joseph W. Dixon. Mr. Spinney, who is a Chelsea policeman, came to the old home for a rest, was taken sick and is still sick.

Between five and six o'clock this morning the clouds were spitting snow pretty freely.

Mrs. Alonzo Davis and little son of Worcester, Mass., are visiting their Eliot relatives.

Royal G. Hill is getting along well, but is still lame and sore from the injuries received by being thrown from his carriage nearly a month ago.

FOSS MAY GET BAIL

Dover, May 22.—Counsel for Oliver M. Foss, the North Stratford farmer accused of manslaughter in causing the death of Peter Akerman in a fist fight at North Stratford, received word from Chief Justice Robert M. Wallace of the superior court today that he had granted their petition for bail for Foss, and had fixed it at \$5,000. It is understood that the bail will be raised.

FUNERAL OF MRS. BRAWN

The funeral of Mrs. Elizabeth A. Brown, wife of D. Woodbury Brown, was held at two o'clock this afternoon in the Rye Christian church. Rev. J. H. Fenwick conducted the service. She was laid to rest in the Rye Central cemetery.

Undertaker O. W. Ham was in charge of the arrangements.

Portsmouth Man One of Trustees of Ten Thousand Dollars

Stratham, N. H., May 22.—By the will of Mrs. Emma Blodgett Wiggin, filed in the Rockingham county probate court, the town of Stratham is to at once have a new \$10,000 public library building.

Mrs. Wiggin, who died on May 12, was the widow of George A. Wiggin, long a leading citizen of the town.

By her will \$10,000 is given in trust to G. Ralph Leighton of Portsmouth, George H. Odell and Mrs. Annie M. Scammon of Stratham for the purchase of a suitable lot on the main street of the village and the erection thereon of a library building of brick or stone. It is to be known as the George A. and Emma B. Wiggin Public Library, in memory of the testatrix and her late husband, and in accordance with his expressed wish. The board of trustees is to be self-perpetuating, but vacancies by death or resignation of resident members are to be filled by the town at a regular or special meeting. At the death of the last of two beneficiaries under the will the library will receive an additional \$1000 as a fund for the purchase of books and eventually it will receive an additional sum of indefinite amount.

The Congregational church, Stratham, is remembered by Mrs. Wiggin by a gift of \$2000, the income of \$500 of which, when needed, is to be devoted to the care of testatrix's cemetery lot.

These are the public bequests, and after a few bequests to relatives, the residuary legatee is testatrix's stepdaughter, Mrs. Annie M. Scammon, wife of Col. R. M. Scammon.

The executor of the will is Frank W. Sargent of Manchester.

SMUGGLER HAS DISAPPEARED

Clue to Supposed Band of
Conspirators Is Lost

ACTION FOR AN ARREST

Taken Only to Find That Man Who
Brought Valuable Coral From Eu-
rope on Steamer Romanic Had Been
Gone Two Days—Value of Gems
Found to Be Much Higher Than at
First Supposed

Boston, May 22.—Vincenzo Mar-
razzo, third-class steward of the
White Star liner Romanic, who was
caught smuggling coral into Boston
on Monday, has disappeared, and
with him it is believed has vanished
the only possible clue to a band of
smugglers for whom, it is suspected,
he was working.

When the customs officials were in-
vestigating, Marrazzo deserted the
ship, and no trace of him could be
found.

An inquiry will, it is understood,
be made for the purpose of fixing the
blame for the escape of Marrazzo, for
whom the federal authorities are now
looking.

At the time the smuggling was de-
tected apparently none of the cus-
toms officials believed that the coral
was worth much. After an examina-
tion by Surveyor McCarthy Marrazzo
was sent back to the ship in the cus-
tody of Customs Inspector Sleep, who
had caught him attempting to get
away from the ship's pier with the
smuggled coral.

No request was made for his arrest
and he was turned over to the care of
the captain, who is held responsible
for members of the crew.

When it was learned yesterday that
the coral was worth \$5400, exclusive
of the duty, which would bring the
value close to \$8000 in this country,
it dawned upon the customs officials
that a smuggling conspiracy had been
unearthed. Collector of the Port Ly-
man notified the United States dis-
trict attorney's office and a search was
made for Marrazzo. He could not be
found.

United States Deputy Marshal Wat-
ers and Special Treasury Agent
Chandler learned that Marrazzo left
the ship two days before and failed
to return. The general belief was
that he had fled to New York.

Very little credence is placed in the
story of Marrazzo that a man by the
name of Nicola Russo was to meet
him on Prince street and take the
coral from him. The customs offi-
cials are firmly convinced now that an
extended scheme for smuggling
jewelry and other valuables into this
country through the port of Boston
was behind the operations of Mar-
razzo, and every effort is being made
to discover the identity of the smug-
glers.

Although it is said the officers of
the Romanic were informed that Mar-
razzo had been caught smuggling im-
mediately on his return to the ship
in the custody of Sleep, he had not
been kept in confinement pending in-
vestigation.

HOLD UP "BLUE LAWS"

What Showmen of Coney Island Will
Ask the Mayor to Do

New York, May 22.—Coney Island
held an indignation meeting last
night. Five hundred men, urged on
by the threatened blow at their pocket-
books, adopted a resolution which
will be presented to Mayor McClellan
today, asking him to withhold a gen-
eral enforcement of the "blue laws"
next Sunday as threatened until a test
case can be carried to the courts.

There was no talk of enjoining po-
lice action, the general decision be-
ing to wait until Sunday to see just
what the police will do.

Mayor McClellan is silent, but he
conferred with the corporation coun-
sel Friday and it is understood that
the Sunday closing orders are to be
carried out if possible.

COLOR MAKES A DIFFERENCE

Court's Ruling in a Damage Suit For
False Arrest of a Negro

New York, May 22.—The appellate
division of the supreme court has
sustained an order of Justice Drugo of
the supreme court reducing the
amount of damages awarded to George
Griffin, a Pullman porter, from \$2500
to \$300.

The negro was arrested in Montreal,
charged with stealing a pocketbook,
but the charge was not substantiated
and he was released. He brought
suit against Daniel P. Brady of New
York, who caused his arrest, and ob-
tained the \$2500 verdict. This was
set aside and the order relative to it
was upheld Friday.

In his order Drugo said: "While in
some senses the negro under the law
is just as good a man as the President
of the United States, it would be a
bad argument to say that he is just
as good in all respects. The damages
in a case of this kind depend on a
man's standing and circumstances. If
he is colored, that fact should be con-
sidered. If you were to take the
mayor of this city and arrest him, he
would suffer far more humiliation
than this porter. If the mayor were a
colored man, he might not feel as
much humiliation and shame."

All That Is Coming to Man Who Sold
Photograph of Roosevelt

New York, May 22.—After hearing
the story of the sale of a photograph
of Theodore Roosevelt, "sitting at his
home at Oyster Bay," in an action
brought by Peter A. Juley, a pho-
tographer, against The Town Topics
Publishing company, Justice Dowling,
in the supreme court, directed a ver-
dict of 6 cents for the plaintiff.

Juley claimed \$5000 damages, on
the ground that the publishing com-
pany failed to keep an agreement
with him to publish the picture in
"Fads and Fancies" with his name at-
tached to it. He sold the picture to
The Town Topics company for \$3.

In directing the verdict, Dowling
said that the plaintiff presented no
evidence to show that he had been
damaged.

INDIANS FAST DYING FROM CONSUMPTION

Vices of Civilization Have Much
to Do With Death Rate

Albany, May 22.—An alarming
death rate from tuberculosis among
the Indians of the various reserva-
tions in this state, who number about
6000, is reported by Dr. Porter, state
commissioner of health, after a care-
ful study of the conditions by Dr.
Huber, a medical expert.

"Unsanitary conditions are every-
where apparent," according to the
report, "and the susceptibility of the
Indians to the vices of civilization
have assisted in the downfall."

The report recommends that efforts
be made to improve the sanitary con-
ditions and encourage better methods
of living among the Indians. The
white man's "firewater" is declared
to be a most potent factor predispos-
ing to consumption among the In-
dians.

Warrants Issued For Arrest of Mem-
ber of Failed Brokerage Firm

Newburgh, N. Y., May 22.—Fol-
lowing the issuance of bench warrants
here for the arrest of Thomas A. En-
nis and Charles T. Stoppini of the
defunct New York brokerage firm of
Ennis & Stoppini, it was announced
that the two were indicted by the Or-
ange county grand jury.

The complaint charges the larceny
of money given to agents of the firm
for the purchase of stocks. The losses
incurred by customers of the firm in
Newburgh and Middletown, where
they had branch offices, are said to
total nearly \$200,000.

possible reason for endeavoring to
keep the peace. Interest, as well as
conscience and duty, prescribe that
course. Nevertheless, when we re-
member how often before govern-
ments and nations that had every in-
terest to keep the peace allowed
themselves to be drawn into war,
and how disproportionate its causes
were to the real interests involved,
we cannot be sure that the same may
not occur again and we must ask once
more, 'Why is it that good resolutions
are so often forgotten? Why is the
practice of nations so much worse
than their theory?'"

"One of the answers most often
given is that ill-feeling between na-
tions leading up to war is due to the
newspapers which, when a dispute
arises between two peoples, are ac-
cused of misrepresenting the pur-
poses and the sentiments of the other
people and so leading each people to
believe itself wholly in the right and
the other wholly in the wrong."

"It is not my business to defend the
newspapers. But in the interests of
truth and justice, it must be asked
whether it is really they that are to
blame. In every country the news-
papers reflect the wishes of the peo-
ple and are what the people make
them. So if the people wish that the
newspapers should show a truly pa-
cific spirit, friendly to other nations,
anxious to know in case of an inter-
national dispute what the case of the
other nation is, then the newspapers
will give their readers facts and op-
inions which will at any rate not hinder
peace and not inflame passion. Thus
we come back to the people, that is
to ourselves, the ordinary citizens,
who are the ultimate masters both
of the government and of the press."

"At this moment, all the govern-
ments in all the great military and
naval states are, I venture to believe,
honestly desirous of peace. Not one
of them has any cause for war. Not
one of them but would lose by war far
more than it could gain. Yet it is ap-
parently possible for those who de-
sire, from whatever motives, to stir
up suspicion and enmity, to succeed
in convincing each nation that the
other has designs upon it."

"Every nation is conscious of its
own rectitude of purpose and believes
that its armaments are for its own
safety and will not be used unjustly
or aggressively. But each one is told
that it must not credit with similar
good intentions the other nation which
is for the moment the object of its
jealousy. Is not this one chief cause
of the atmosphere of suspicion in the
relations of the great powers, and
leads them to go on creating the
enormous armaments and levying the
enormous taxes under which their
people stagger?"

"Thirty or forty years ago there
was a good deal of this suspicion be-
tween Britain and the United States.
Better knowledge of the other has ex-
tinguished that feeling and substituted
for it a genuine friendship which
will at once recur to arbitration for
the settlement of any question that
may arise. Why should this not be
done as regards the other powers also?"

"It was well said recently by Mr.
Root that there ought to be, and there
was gradually coming to be, a public
opinion of nations which favored ar-
bitration and would condemn any gov-
ernment which plunged into war when
amicable means of settlement were
available. May we not go even
further and desire and work for the
creation of the public opinion of the
world, which has regard to the gen-
eral interest of the world, raising its
view above the special interest of
each people?"

Favorable Business Developments
New York, May 22.—R. G. Dun &
Co.'s weekly review of trade says
that almost every development except
the lengthening debate on the tariff
is favorable, and the gains made in
spite of the tariff disturbance are a
fair indication of what may be ex-
pected when that is out of the way.

Income Tax Amendments
Washington, May 22.—The coal-
ition of Democratic senators and "pro-
gressive Republicans" has been
broken so far as the income tax ques-
tion is concerned, and amendments on
that subject will be presented by both
Senators Bailey and Cummins.

TRUTH CONCERNING THE UNITED STATES

Scandinavians Will Hear It on
Fourth of July

Copenhagen, May 22.—The Dan-
ish crown prince has accepted an in-
vitation to attend the Danish Ameri-
can reunion at Aarhus on July 4.
Premier Neergaard also will be pres-
ent, and about 2000 Danish-Americans
are expected.

This is the first time that an at-
tempt has been made to have a Fourth
of July celebration in a foreign coun-
try conducted by naturalized Ameri-
cans descended from that country.
The object is to afford Scandinavians
an opportunity to learn the truth
about the United States, a land that
many of their people have made their
homes and learned to love as their
own country.

The city of Aarhus itself has played
an important part in the development
of the countries of northern Europe
and the exposition will commemorate
the 100th anniversary of its found-
ing.

STABBED TO DEATH

Woman Said to Be Victim of Man
Prominent in Teamsters' Strike

New York, May 22.—Cornelius P.
Shea, who the police say came to
this city from Chicago several months
ago and became involved in the local
teamsters' strike, was arrested last
night, charged with stabbing a wom-
an at his home in West Thirteenth
street.

The woman, who gave the name of
Alice Walsh, was stabbed in a dozen
places and both she and Shea were
covered with blood. Shea declined
to make any statement.

The woman died in St. Vincent's
hospital last night. Examination by phy-
sicians showed that she had been ter-
ribly hacked with a pocketknife, and
that one blow almost severed the
jugular vein.

Washington, May 22.—William
Jones, known as "Avenger Bill,"
Jones because of his attempt to shoot
Guitreau, the assassin of President
Garfield, while the former was be-
ing removed from the courthouse to
the jail here, was acquitted by a jury
here of the murder of John O. Mc-
Pherson who was killed by Jones
last October.

Self-defense was the plea of the de-
fense. McPherson was employed on
a small farm owned by Jones and was
killed during a quarrel.

GOMEZ' DECREE OF AMNESTY

Serves to Relieve Castro of
a Serious Charge

THE CASE IS DISMISSED

Former President of Venezuela Sup-
posed to Have Fomented Plot to
Assassinate Man Who Assumed
Presidency and Which Was Nipped
in the Bud by the Intended Victim
at Great Risk

Caracas, May 22.—A decision was
rendered by a judge of the criminal
court dismissing the charge against
former President Castro of complicity
in a plot to assassinate Juan V. Go-
mez last December. Gomez at the
time was acting president of the re-
public, having been left at the head of
the government by Castro when he
sailed for Europe on Nov. 23.

The decision was rendered on a
petition of the attorney general, who
took as the ground for his plea the
recent amnesty decree of President
Gomez which gave freedom to all po-
litical prisoners at the time of the
overthrow of the Castro administra-
tion last December. Everybody un-
der arrest charged with complicity in
the attempted assassination was lib-
erated at that time.

The alleged plot to assassinate
Gomez was nipped in the bud per-
sonally by Gomez on Dec. 19 last.
Gomez went alone to the barracks in
Caracas where a mutinous regiment
under command of Castro's brother
was quartered and arrested him and
then went to the executive mansion
and took into custody Senor Torres-
Cardenas, a former minister of the
interior, who was said to have been
one of the chief conspirators.

The men reputed to have been con-
cerned in the conspiracy were Cas-
tro's closest friends. Secret cipher
cable dispatches had passed between
Castro, who was in Berlin, and his
adherents in Venezuela and an ac-
cusation was filed in the high federal
court at Caracas, charging Castro
with complicity in the plot to assas-
sinate Gomez.

Later an indictment was found
against the former president and it
was announced that if he again set
foot on Venezuelan soil he would be
arrested and tried for the alleged of-
fense. Castro is now in Spain.

SET FREE BY JUDGE

Man Had Been Convicted of Man-
slaughter in Superior Court

Worcester, Mass., May 22.—Sus-
pending judgment because he believed
the case came near to being one of
self-defense, Judge Pierce gave liberty
to John Garritas after a jury in the
superior criminal court had found him
guilty of manslaughter.

Garritas killed Willie A. Goodfield
in Hardwick May 5 by stabbing him
after a mix-up in a hotel barroom.
Garritas is a small man, while
Goodfield was large and powerful.
He said that Goodfield threw him out
of the barroom door and followed him
outside, striking and kicking him,
until being cornered and fearing for
his life, Garritas stabbed Goodfield.

Judge Pierce ordered the man re-
leased on his own recognizance after
the jury had reported.

Washington, May 22.—Mrs. Taft
will probably leave for the "summer
capital" at Beverly, Mass., early in
June, it is announced, if it appears
that the president is detained in
Washington by the tariff until after
July 1.

Although Mrs. Taft is making satis-
factory progress from the slight ner-
vous breakdown which she suffered
several days ago, she probably will
be obliged to give up social duties for
some time.

New York, May 22.—Two men here
were sentenced to sixty days' impris-
onment each—one for selling bad eggs
and the other for using them in mak-
ing pastry. This announcement was
made by the board of health.

They are the first cases on record
in New York where a prison sentence
has been imposed for the two of-
fenses. This drastic action was taken
to break up the practice which the
repeated imposition of fines failed to
check.

NO TRACE OF WHALERS

Little Here For Crew of the Provin-
town Schooner Knowles

Washington, May 22.—Almost all
hope that the Provincetown whaler,
Carle D. Knowles, and her crew
were not sunk at sea years ago was
extinguished when Senator Lodge re-
ceived from the state department the
following dispatch from Minister Rus-
sell at Caracas:

"Many cables received here in re-
gard to imprisonment of wrecked crew
by Castro. Have received cable from
United Press. Absolutely nothing
known in this location, and no re-
port from any of our consuls. For-
eign office knows nothing, and names
of alleged prisoners do not figure in
lists of department of interior. Press
notices do not state place of prison."

This dispatch was in reply to a
fresh request of the state department
that the diplomatic and consular of-
ficers at Venezuela and the West In-
dies exhaust all possible means of
clearing up the mystery.

OUR FOREIGN MARKET

There will be held in Ecuador, beginning August 10 of this year, a national exposition at Quito, the capital. The contract has already been let for the erection of an American building by our government.

Mr. Ernest H. Wands, United States commissioner to this exposition sent to the American Association of Manufacturers a letter which was presented to the association convention in New York this week and which contains the following: "I am quite satisfied that it would be distinctly to the advantage of the manufacturers of the United States to be liberally represented with exhibits at the exposition, and it occurs to me that the National Association of Manufacturers should be especially interested in having the display as comprehensive as possible. I am assured by the government of Ecuador that the European manufacturers have applied for a good deal of space. It has also occurred to me that as some of the American manufacturers might not care to send a man to Quito to take care of their goods at this exposition, I would suggest that there is offered an excellent opportunity for some man to secure the representation of five or ten concerns, to take their exhibits to Quito, represent the companies and have these different concerns make up his salary among them. Of course the larger manufacturing companies will want to send representatives with their own exhibits. There should be an excellent market in Ecuador for all kinds of agricultural tools, and implements especially. The higher plateaus yield a good deal of grain of all sorts. Exhibits of machinery for the manufacture of boots and shoes and all sorts of hardware, mechanical tools and implements, of harness and saddlery would, I am sure attract a great deal of attention, and would probably serve to open a very desirable market for the sale of American goods. All exhibits are admitted to Ecuador free of duty and the freight rate over the rail way from Guayaquil to Quito will be one-half of the regular rate."

That is all very well, but what is the use? Have we the facilities for marketing United States products in Ecuador? Why exhibit unless there is the way to make the exhibition bring in some returns?
 The moment we undertake to do a foreign business the modern facilities must be forthcoming. A South American order today to the average manufacturer, for a large volume of merchandise would be at once queried for the reason that we have no facilities for extending credit; and that leads to a serious defect in our facilities for doing a foreign business. Americans have no bank connections, especially in South America, and this at once brings up the question that we should have American banks. The International Banking Corporation, which has branches established in Panama, Colon, Mexico City, London, Bombay, Calcutta, Singapore, Hongkong, Canton, Shanghai, Yokohama, Kobe, Manila and Cebu, have been rendering great assistance in this direction in the above localities; and as an evidence of the great amount of business to be had, the International Banking

Corporation claims to have turned over its capital in 1908 twenty-one times. Therefore no one could say there is no need for American banks. Notwithstanding this great volume of business, however, only two per cent of the foreign banking is done by American banks, including Kidder, Peabody & Company, and Brown Brothers & Company, the latter firm being semi-foreign. Capital, however, is timid about entering foreign territory, especially when there are such great opportunities for making money rapidly here in the United States.

But not even that is the greatest hindrance. Suppose, for example, that any two of the great powers, for example, Germany and Great Britain, should be engaged in conflict of arms, or that any one of these great powers should go to war with any other nation, what hardships it would work against our foreign commerce. In such a case, where would we get the ships to transport our merchandise? See what England's little war with the Boers cost this country in the loss of trade, although the Boer nation was without a single vessel of any kind. The freights from some of the ports on the Pacific coast were advanced more than 150 per cent. England at once levied a tribute upon the farmers of our West coast, and the price of their wheat was practically reduced twenty-five cents per bushel for foreign shipment. The farmers are said to have lost in their sale of grain to England alone, the first year of that war, \$1,750,000, and in the sale of cattle alone \$4,000,000, and lost in breadstuffs to Europe in the two years, \$115,000,000. An adequate United States merchant marine is the great necessity for enlargement of our foreign trade.

It was the dream of James G. Blaine that the American manufacturer should send his wares to all parts of the earth.
 Mr. Blaine began as an ardent pleader for protection in the home market, and ended by urging tariff and trade relations that should promote the United States producers' occupancy of the world markets. Mr. Blaine in his last years taught that when wheat was exported the American laborer lost the work of making that wheat into flour and the flour into crackers or other prepared foods which might be exported.

William McKinley in the development of his ideas on the tariff began as did Blaine, changed his ideas in the same way and in his closing speech advocated the identical doctrine that Mr. Blaine brought forward in his closing days.

The Republican party seems to be following the same development of tariff ideas. Meanwhile we are to get a tariff bill that will admittedly be a makeshift, because of the lack of definite information. The need of a tariff commission, to gather information, is pretty clearly proven. The curious interdependence of things upon one another is illustrated by this clustering of diversities. Let us have the necessary legislation to make Ecuador a good market for the United States. In getting that we will also get what we need for the rest of the world.

CAN'T LOSE HAIR

Twenty Years From To-day a Bald-headed Man will be an Unusual Sight

One of the most prominent drug-gists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Parisian Sage, increases its sales as it has during the past year, it will be used by nearly every man, woman and child in America within eight years."

"And when Parisian Sage is used almost universally, dandruff will disappear and with its departure baldness, itching, scalp, splitting hair and all scalp diseases will follow and twenty years from now a baldhead will be a rarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one hair preparation that will kill the germs, and that is Parisian Sage.

This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left. It is guaranteed by Goodwin E. Philbrick to cure dandruff, stop falling hair and itching of the scalp in two weeks, or money back.

It is the most pleasant and invigorating tonic, is not sticky or greasy and is used extensively by ladies of refinement, who desire to have and to keep their hair soft, lustrous and luxuriant.

Only 50 cents for a large bottle at Goodwin E. Philbrick's and leading druggists everywhere, and remember when you buy a bottle of Parisian Sage you get more for 50 cents than the makers of ordinary tonics give you.

A TIMELY TOPIC

BY
CHARLES LOTT
 In "Michigan Farmer"

Good Hen
 House

I have been on the farm for about forty years and have kept more or less poultry each year, the number of fowls varying from 50 to 400 head. I kept them in a house 12x100 feet, and found it very inconvenient, as it necessitated so many partitions, feed troughs and drinking vessels. So I concluded to make a change. Last spring I built a house 40x10 feet, inside measurements, thus giving 1600 feet of floor space, and am well pleased with it. On the coldest and most blustery days last winter those hens would sing as merrily as birds in spring.

As stated, the house is 40x10 feet. The walls are of concrete 5 1-2 feet above ground. It is studded inside with 2x4 scantling and lined with tarred paper tacked onto studding. This keeps it dry and warm. Being built on a sand knoll, it has nothing but an earth floor. It has five windows in south side, each containing eight 19x12 inch panes, and three in east side. There are small chutes, or runs, for chickens to pass in or out through on north side. The roosts are in northwest corner, and there is a ventilating shaft in center. I tried the experiment of wintering twenty-five colonies of bees in this house last winter, and they came out in fine condition this spring.

Now as to the difference in cost. In my new or square house I have 1600 feet of wall, inclosing 1600 square feet of floor space. In the old or long house I had 224 feet of wall, inclosing 1200 square feet of floor space. There is about the same proportion of waste in the roofing. So you see there is quite a difference in favor of the square house, in cost of material and construction. I keep in this house at present 250 hens and get about 150 eggs daily.

EPPING

Telephones have been installed at the residences of J. Winfield Robinson, George A. Gilmore and Joseph O. Ross, Esq.

Mrs. Annie Mott has been quite ill for several weeks.

Mrs. Ellen D. Fryer and Miss Grace Parker spent Tuesday in Haverhill, Mass.

Miss Clara Fowler, of Boston and Little Boar's Head, has been the guest of her friend, Mrs. Elizabeth Bacon.

The Newmarket Electric Light company has finished setting poles for the street lights, and has also wired the town and grange halls.

Mrs. W. S. Goodrich, with her friend Mrs. John Q. Pike of Dover, is attending a meeting of the state federation of Women's clubs at Nashua.

Wilcox F. Buswell left this week for Springlake Beach, N. J., where he will spend the summer.

Under the auspices of St. Joseph's church, a French drama will be given in the town hall on Monday evening.

Moses U. Hall has finished laying the foundation for the large addition to the Falconer and Feely shoe factory at Raymond.

Rev. C. W. Fisher is spending the week with friends in Portland, Me.

Mr. Charles W. Sanborn is the guest this week of her daughter, Mrs. Henderson of Merrimack.

Pauline, the little child of Herbert Underhill, met with a painful accident while at play recently, cutting a gash in her face which necessitated the taking of several stitches.

Work on the Ladd homestead is progressing rapidly and it is now expected that the house will be ready for occupancy in July.

Mrs. Frank E. Sanborn, of Newburgh, N. Y., is the guest of her mother, Mrs. Laura Bartlett.

The concert which is to be given on Thursday evening, May 27, in the town hall under the direction of John E. Shaw, promises to be a rare musical treat. There will be soloists from Amesbury and Newburyport, Mass.

Mrs. Bernice U. Hoyle, of Worcester, Mass., Charles Scribner, Mr. and Mrs. E. W. Smith, of Raymond, J. L. Thayer, violinist, will also assist the large chorus. It is expected that the new electric lights will be used for the first time on the evening of the concert.

Mrs. Bernice A. Hoyle, of Worcester, Mass., will sing at the Methodist church Sunday morning.

At the Methodist parsonage Monday Ara Weston Snow and Miss Laura Jones, both of West Epping, were united in marriage by Rev. G. W. Jones.

John Allen and J. W. Robinson have been doing painting and papering at the Methodist parsonage.

GREENLAND

Mrs. Albert O. Shaw passed Tuesday in Boston.

Miss Alice G. Colby went to Keene to visit her mother and sister.

Mrs. Ford Ackley went to Portland, Me., for a few days' stay with friends in that city.

The Methodist church and parish are talking about celebrating the one hundredth anniversary of its organization which occurs sometime in July. Nothing definite has been decided upon as yet, only suggestions are being made in regard to the practicability of it.

The Stratham Hill concert given here at the town hall on Thursday evening of last week was well patronized, considering the busy season of the year at its presentation, and was most enjoyable. Each number of the program was finely executed eliciting the keenest appreciation.

Prominent among the soloists were Mr. Harry Sparks, Mr. Cram, Mr. George Lord and the inimitable Snow in "Old Black Joe." Mrs. Shaw, Miss Moodie finely rendered solo.

and Miss Hilliard's work as reader was excellent. The chorus was commended for its excellence. The object is one of the best and the effort of each contributor to make the concert of a high character is worthy of praise. Their efforts deserve success.

After Mrs. H. D. Batchelder's return from New York to Boston she passed a week with the Misses Gertrude and Josephine Chapman at Malden, Mass.

Rev. Mr. Burgess will speak at the Methodist church Sunday evening in the interests of Tilton seminary.

On Friday of last week Miss Margaret, a teacher in the Portsmouth high school, came out for a brief stay with one of her pupils, Miss Dorothy Odell, with Mrs. W. A. Odell, Elizabeth and Miss Lillian Odell, they drove to the Bayside.

After enjoying the picturesque scenery and gathering wild flowers at that lovely resort they were entertained at the historic Weeks homestead where they were much interested in examining the curior with which the house abounds. Especially attractive to them was the ancient ware still in excellent preservation which was brought over from England in the year 1633.

Miss Lucey, of the grammar school went to Natick, Mass., on Friday to remain over the Sabbath at home.

It is reported that Rev. George H. Driver will exchange pulpits with Rev. Dr. Robie next Sunday morning.

Last Day of This Week's Vaudeville Bill

This is the last chance to see the prize winning "Blue Ribbon Trio" and Joe Ellis, the German comedian. Both of these good acts close at Music Hall tonight.

Art Spaulding is making a great hit with his two songs and has a couple of good ones up his sleeve for next week.

The pictures for today include "Hunting Hippopotamus in Africa," "Bohemian Girl," "The Eaves Dropper," "Tax On Bachelors" and "The Suicide Club."

Next week Morgan's vaudeville troupe of five people. Children five cents at Saturday matinee.

MOTOR BOAT REGULATIONS.

Collector of Customs Sherman T. Newton has issued his annual notice to the owners of motor boats, calling their attention to the rules and regulations governing such crafts. They are no different than last year, but require the carrying of side lights and the bow and stern lights. The regulation also called for each craft carrying a whistle, a bell and a horn. It also demands that where passengers are taken for hire properly stamped life saving belts shall be provided, and the pilot in charge must have a license.

The City Charities—How is Twenty Thousand Dollars Expended?

To the Editor of the Herald:
 The Herald of Wednesday, May 19, gave an account of the meeting of the Associated Charities, and stated that there was annually distributed in this city, over twenty thousand dollars toward the relief of the poor.

The city of Portsmouth does not expend over thirty-five hundred dollars and the aggregate of all the other local associations for the benefit of the poor must be a small portion of the remaining sixteen thousand, five hundred distributed among the poor in Portsmouth for the last fiscal year. I should like to see manner and the figures and by whom this twenty thousand dollars is disbursed.

Exeter, May 22.—The United States civil service commission announces that Saturday, June 19, an examination will be held at the Exeter postoffice for the position of a fourth class postmaster, class B, at Brentwood. The age limit is 21 years and over on the date of examination. Applicants must reside within the territory supplied by the postoffice named above. It is open to all United States citizens who can comply with requirements. Application forms and full information concerning the requirements can be secured from the Brentwood postoffice or from the civil service commission at Washington.

Exeter Academy has chosen representatives for the annual Exeter-Andover dual meet, which is to be held this year at Andover, May 31. The prospects of a victory over the Bay state academy are not so bright, as they were a short time ago, owing to scholarship condition of W. E. Guthrie, who won the shotput at the Harvard freshmen meet, and W. D. Park and D. C. Sheppard, two pole vaulters, who would have probably won points. Those who will wear the crimson of Exeter are: 100 and 200 yard dashes, Capt. T. H. Cornell, '11 and Fred Burns, '11. 120 yard high hurdles, N. P. Litchfield, '10. D. Crandall, Jr., '11 and A. E. Gymnasium Instructor H. A. Ross and Manager G. B. Morrison left Friday noon for New Haven, Conn., where the Academy will compete in Saturday's Yale interscholastic meet. The team is confident of making a good showing. A team of seven men accompanied Coach George S. Connors.

Exeter Academy baseball team plays the University of Pennsylvania freshmen on the campus this afternoon. The freshmen are strong and should win from Exeter. The lineup will probably be nearly as in the game with Cushing on Wednesday. The Pennsylvania team caused somewhat of a surprise here by sending a dispatch stating that the umpiring of J. E. Ryan of Haverhill, Mass., would be objected to. William F. Quintan of Dover has been secured in his place.

Manager George B. Cortelyou, Jr., of the academy baseball team has been called to his home in New York by the death of his sister, aged 9 years. He will be gone for at least ten days. Does Your Hair
Get Full of Dust
When You Ride
In An Automobile?

Much of the dust and dirt stirred up by automobiles settles upon the hair and scalp of those who ride in them. At the end of every trip an automobilist's hair needs to be thoroughly washed, but the common mistake of using common soap ought to be avoided. Common soap contains too much alkali and robs the hair and scalp of their natural oil, leaving the hair harsh and dry and the scalp rough. If the hair be washed often with soaps containing excess alkali, it is only a question of time until the hair begins to fall out. People who ride in automobiles, as well as those who don't, are strongly urged to try Birt's Head Wash for cleansing the hair and scalp. This is as good a preparation as present-day science can produce. It is made of Refined Soap, Cocoon Cocoonut Oil, White of Eggs, Glycerin and Sal-

cyclic Acid. No other ingredient is used. Any doctor, druggist or scientist who knows anything about a proper cleanser for the hair will tell you there are no better ingredients known. You can use Birt's Head Wash every day, and your hair will improve and grow naturally. It is of great benefit in such troubles as Dandruff, Itching Scalp and Falling Hair. Birt's Head Wash has wonderful cleansing properties. Wash your hair with soaps or shampoos as hard as you please, and then wash it again with Birt's Head Wash, and you will be astonished how much more dirt and dust will be taken from your head. There is no secret about this preparation, so no one need hesitate about using it. Why use secret fakes and frauds on your hair, when you can use Birt's Head Wash and know exactly what it is made of? Price 50c.

devoted to music and social arrangements.

The twelfth annual contest for the high school's Abner L. Merrill prizes in composition and declamation were held on Friday evening at the town hall. A large audience heard the students compete for the prizes, and the work of each was especially good. There were three for declamation, and all by their efforts made it difficult for the judges decisions. The programme was: Declamation, "Lincoln," Henry A. Gruwald; composition, "The Home Life of Abraham Lincoln," Paul A. Moses; declamation, "Commemoration Ode," James O. Berry; composition, "The Lincoln-Douglas Debates," Clayton W. Work; declamation, "Second Inaugural," Louis D. Gilmore; composition, "Lincoln in Exeter," J. William McNulty. The composition prizes were awarded to Work, McNulty and Moses in the order named, and Gilmore was first, Gruwald second, and Berry third on the declamations.

Mr. George E. Smith has purchased from Mr. Lorenzo Nealey the lot on the corner of Lincoln and Charles streets, nearly opposite the station. Mr. Nealey will at once remove the two small buildings on the lot and Mr. Smith will have built an automobile repair shop of suitable dimensions for his own occupancy.

A district meeting of Red Men, comprising Wenhawnowit tribe, No. 22, Massasoit, No. 16, and Pocasset, No. 45, will be held in Exeter on Thursday evening, May 27, when the great chiefs will be present to witness the degree work exemplified on a large class. Last evening District Deputy Grand Sachem, J. H. Tattersall, went to Rochester to participate in a district meeting there.

At the town hall next Friday night, May 28, the third company, coast artillery corps, formerly Company I, Second regiment, will give a social dance, a prize wait to be a feature. Private, Ciley, Corporal Laframboise and Privates Dwyer, Shannon and Noonan are the committee of direction.

Instructor Segerblom of the Academy has presented to the public library copies of his pamphlet, "Making a Chemical Collection," and his latest book, "Tables of Properties of Over Fifteen Hundred Inorganic Substances."

The Christian Fraternity speaker on Sunday evening will be Mr. Jesse Lynch Williams, author of Princeton stories and a pleasing speaker. Mr. Eugene C. Alder, who next fall will assume the principalship of Adelphi Institute at Brooklyn, has secured as one of his subordinates Mr. George Jacobus, a graduate of the Academy in 1891, now of Pawling (N. Y.) school. Frederick A. Wilmont, a graduate of the Academy in 1905, was one of two awarded first prizes of \$50 each in the annual contest at Harvard for the five Boylston prizes in elocution, held on Thursday evening of last week at Sanders theatre in Cambridge.

Rev. William C. Adams, of Dover, will preach at the Unitarian church Sunday in exchange with Rev. Edward Green.

An extra meeting of the Renaissance club, under charge of the social committee, will be held next Monday evening at the residence of Dr. Ball.

Below is given Exeter's valuation for the current year. It shows an increase of \$24,235. 1050 polls, \$105,000; improved and unimproved land and buildings, \$2,469,675; 409 horses, \$35,360; 12 oxen, \$800; 333 cows, \$9,990; 90 neat stock, \$1,765; 41 pigs, \$410; 1000 fowls, \$500; 163 carriages, \$28,470; boats, \$3,350; stock in banks and other corporations in this state, \$3,600; doomsday, \$278,600; money on hand, at interest or on deposit, \$17,550; stock in trade, \$181,250; mills and machinery, \$150,000; stock in public funds, \$150; total \$3,288,470.

The train service at this station this summer will be the best in the history of the Boston and Maine railroad.

TIRED OF LIFE CANDIA
MAN KILLS HIMSELF

Frank Swain of Candia committed suicide Friday forenoon by shooting himself through the head with a revolver.

He was a carpenter by trade and unmarried, and shortly after rising Friday morning he committed the

deed in his room. The shot was heard by some of his family, but he was dead when they reached him. Deputy Medical Referee W. D. Walker of this city was called and viewed the body. Swain, who was a sober and industrious citizen, was thought to have been in ill health.

THE WRONG IMPRESSION

Royal Arcanum Bowling Team Took Places of Yacht Club and Were Simply to Finish Out the League

One of the papers states that it seems wrong that the Country Club bowling team should take the championship whereas the Royal Arcanum team has only played one half of the tournament and has won all but two points, and it is one of the best teams in the city. As a matter of fact the Country Club have in the same number of games as the Arcanum won every point, therefore lead that team two points for the last period. That the Arcanum have lost only two points, but four were defaulted to them, whereas the Country Club won all of theirs.

The facts are that the Arcanum team asked to come into the league and finish up the last half in the place of the yacht club team which withdrew, not having won any points. They were given the yacht club schedule and have rolled fine, but not as good even for the time they have been in as the Country Club. The Country Club have a better average string for the last half than the Arcanum, a better individual average, and the record for both single string and three string since the league started, so that if there is any reason why they have not rightfully won the title any fair minded sport would be at a loss to see. In all of the games played the winning team has lost but three points out of possibly 36 while the Arcanum have lost two out of possibly sixteen already played.

The final games will be played next week and the Country Club will meet the Arcanum on Wednesday evening and the game promises to be one of the most interesting rolled.

The vault alarm of the new banking rooms of the National Mechanic and Traders' bank is a conspicuous object on the side of their bank building.

The last games in the Club Bowling league will be played next week.

The new signs giving the speed limit in this city for automobiles are conspicuous enough so that nobody can give an excuse that they did not see them.

The suspension of business in every plant of the Standard Oil was a fitting tribute to the memory of H. H. Rogers, the man who was instrumental in creating it.

Deputy Medical Referee W. D. Walker was kept busy on Friday making two calls, one in Newmarket, and the other in Candia. He made both in his automobile.

An enclosed baseball field is very much needed in this city. It is sad that somebody will not take pity on the condition of baseball and donate a field.

THE ZAHN PROPERTY

It Was Sold at Auction This Morning to Sperry H. Locke

Sperry H. Locke was the purchaser of the Elmer D. Zahn stand at No. 7 Whidden street this morning. The auction was on account of the mortgage foreclosure of the Portsmouth savings bank and the auctioneer was William G. Marshall.

The property comprises 5,525 square feet of land and a two-story house.

THE SHAW CASE

The Boston press appears to care little for facts in handling the stories connected with the suit for separation between James F. Shaw and Mrs. Nettie E. Shaw. The Herald understands that Mrs. Shaw has brought suit for divorce and the custody of her son and that the case will be heard in the local courts.

DOING THEIR DUTY

Scores of Portsmouth Readers Are Learning the Duty of the Kidneys

To Stop the Blood in the Kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney troubles follow: Urinary trouble, diabetes, Dean's Kidney Pills cure them all. Portsmouth people endorse our claim. Mrs. E. H. Welch, 9 Bridge St., Portsmouth, N. H., says: "My husband was troubled for over a year with pain across his back, accompanied by severe headaches. When I heard about Dean's Kidney Pills, I went to Phillips' drug store and procured a box. My husband began to feel better and he was helped from the pain. Before long the backache and stiffness in his back entirely disappeared and the headaches also ceased. During the past three years there has been no return of kidney trouble and my husband has recommended Dean's Kidney Pills when ever he has had the opportunity." For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Dean's and take no other.

WEEKLY PAY SOON

The last pay day under the present plan of bi-weekly payment on the Boston and Maine railroad was made on Friday and hereafter the men will be paid every week. The last legislature passed a bill to this effect and it recently took effect and the Boston and Maine railroad is one of the first to take cognizance of it.

The Isles of Shoals will open the season on June 26.

Albert O. Smith and Mrs. R. S. Ballou of Newmarket were drowned on Thursday night in the Lamprey river, by the overturning of a boat. The body of Mrs. Ballou was recovered Friday, while that of Mr. Smith is still in the river.

Mr. Smith and Mrs. Ballou were out in a motor boat riding about the river and after when they had anchored the motor boat, they stepped into a small skiff to row ashore. In some manner it was overturned and both were thrown into the water. Smith made a gallant effort to hold

Mrs. Ballou up, but he was not a good swimmer and both disappeared before Elmer Stevens and William Watson, who had witnessed the accident, from some distance away, secured a boat and went to their aid. Friday forenoon the body of Mrs. Ballou was recovered by dragging the river, but no trace of Smith was secured. Deputy Medical Referee W. D. Walker of this city was called and he viewed the body of Mrs. Ballou and pronounced death due to accident and ordered it turned over to relatives.

STEAMER CLEAR OF ICE PACK AT ST. JOHN

St. John's, Nfld., May 22.—The steamship Mongolian cleared herself from the ice pack at daylight Friday but worked offshore instead of making any further attempt to enter this

harbor. At 8 a. m. she was making slow progress south through the ice, and heading in the direction of Bay Bulls, 18 miles away, where there is a chance to enter harbor.

It was a heavy easterly swell which set in last night that broke up

the ice pack and enabled the Mongolian to shake herself free, after being completely helpless for 36 hours.

The heaving and grinding began about dark, and all night there was constant commotion in the great field, the big bergs twisting and turning, while the pressure on the steamship was greater than ever before.

Dawn revealed open water within a few miles of the steamship, and a little later a lead opened out through which the Mongolian steamed to comparative safety.

For the first hour or two it was slow work, as the ice was still heavy and continually driving in on the steamship. On getting farther off shore the ice opened out more, and at 8 a. m., with fairly clear water, the Mongolian swung around and headed down the coast and around Cape Spear, in the direction of Bay Bulls.

It was thought at first that the Mongolian might try to run into Petty harbor, five miles south, but her captain decided to keep on to the more sheltered harbor of Bay Bulls, where it is expected that the Mongolian will lie until the mouth of this harbor is cleared of ice.

The weather today continued favorable, the wind holding light from the north with a cloudy sky. The thermometer last night fell to freezing, but rose to 38 at 7 a. m.

In shipping circles here the release of the Mongolian is looked upon as particularly fortunate, as the conditions last night were very threatening, and any easterly gale would have seriously injured the vessel.

ABDUL HAMID SETTLES

Constantinople, May 22.—A local newspaper declares that Abdul Hamid, the deposed sultan, has transferred bank deposits amounting to something over \$5,000,000 to the government.

HAD NIGHTMARE

Boston Herald Dreams That Two Navy Yards Will be Closed

Every six or eight weeks the Boston Herald has a nightmare over the contemplated closing of the Charlestown navy yard.

This morning it evidently had had the nightmare again during last night, for it published the following Washington dispatch: "An influential coterie of naval officers favors closing the Boston and Portsmouth yards. From their number came a report today that such an official recommendation had been made to Secretary Meyer, together with recommendations for making New York, League Island and Norfolk the big yards on the Atlantic coast. Secretary Meyer, however, this afternoon authorized a denial that any such recommendation had been made to him regarding the Boston yard. Of course, no step of that importance in naval administration could be undertaken without his assent, and, furthermore, would hardly be possible without the approval of congress. Mr. Meyer added that there would be no action looking to the permanent curtailment of the operations at the Boston yard, although it would naturally be affected by the general policy for the curtailment of expenses."

The Boston Herald has no need to worry about Portsmouth. The navy yard here is destined to be the greatest in the world. It has the deep channel where a ship could come in at low tide drawing fathoms more of water than are possible at high tide in Boston or New York, has the convenient room for anchorage, the deep upper river for refuge, if necessary plenty of room for expansion, the biggest and most economical dry dock in the country and chances to construct a dozen more similar dry docks, none of which advantages are to be had so fully at any other naval station east of Puget Sound.

The men of brains in the navy know this, and they are not willing to miss the utilization of the Portsmouth yard.

Secretary Meyer knows it too, and he is giving plenty of evidence of having a mind of his own.

THE NAVY YARDS HERE AND AWAY

New General Storekeeper
Paymaster Goldsboro, U. S. N., will relieve Pay Inspector M. M. Ramsay, U. S. N., as general storekeeper.

The Yard's Future
The Portsmouth navy yard will be open when both the New York and Boston yards will be used for commercial purposes.

The New Tug in July
The new tug will go in commission about July 1st and not on June 1st as ordered.

Working in Boston
John Kelley, a former employee of the boiler shop, has received a call for duty in the boilermakers' crew at Boston navy yard, and reported for duty today.

To Go in Commission, Nero Coming to Yard
Orders have been received at the

yard to have the collier Leonidas ready to go in commission by June 15, when the collier Nero is expected here where her crew will be transferred to the Leonidas and the Nero put out of commission for extensive repairs.

Ordered to the New Hampshire
Captain T. E. Blockstrom has been detached from recruiting duty at St. Louis, Mo., and ordered here to command the marine guard shortly to be placed on the U. S. S. New Hampshire.

What the Navy Will Send Over
The officers have been detailed by the commandant of the yard, who are to take part in the Memorial day parade on May 30, in Portsmouth. Major Henry Leonard will command the battalion; Lieut. E. S. Bigler will officiate as adjutant and the company officers will be Capt. J. S. Turritt, Capt. Giles Bishop, Lieut. E. P. Fortson and H. B. Pratt. These officers will command the marines from the naval prison and the prison ships Southern and Topeka. The marines from the barracks under Capt. W. H. Parker and Lieut. F. D. Barber will parade in Kittery.

A brigade of bluejackets from the Maine, New Hampshire and Wisconsin will also participate in the ceremonies.

Two Hundred and Fifty at Practice
There are at present over 250 marines doing target practice at Wakefield, Mass., including those from the ships at this port and those of the vessels at the Boston yard. They will shortly complete the work and others will be sent from this station and Boston to take their places.

Appointed Judge Advocate
Major Henry Leonard, U. S. M. C., commanding the U. S. naval prison has been appointed judge advocate of a general court martial board which will convene at Boston navy yard on Monday next.

Chasing the Pay Wagon
The new method of paying the men of the yard was given a trial today and the money sent around to the different shops by wagon. The force employed on the ships were paid in the pump well at 11:30 while the other workmen got their wages as the bank on wheels came around to them. This plan at some of the yards has failed to bring the results expected.

Two Helpers Called
Two boilermakers' helpers are the extent of the calls made by the labor board today.

Thirty Days Off
Lieut. T. D. Barber, U. S. M. C., attached to the marine guard at the yard has been granted thirty days leave of absence.

Holland Gets the Contract
John Holland has been awarded the contract for furnishing the necessary amount of meat for this yard and station at the price of \$39,617.

Detached from the Prison
Capt. Giles Bishop, U. S. M. C., has been detached from the naval prison and ordered to duty in the Philippines, to sail from San Francisco June 5.

Want the Tug Ready
The navy department has requested that the sea going tug Patapsco be ready for commission on June 25.

The Herald was the first paper to give the names and dates of the two cruises that will be at Portsmouth in June and July.

DOUSED THE GLIMS

Petty Cases of Mischievous Mischief At the Toll Bridge Lights

Some class of freaky sports appear to be carried away with the lights that illuminate the Portsmouth and Kittery bridge by night, and every now and then these glims are either stolen or put out of commission.

A few nights ago five of them were stripped from their stand by the unknown hand and smashed into pieces on the bridge highway. What pleasure or amusement one can find in this branch of destruction is hard to comprehend, but somebody is liable to see the finish of himself as well as the lights if they insist on this destructive work.

133,000 TONS OF COAL

Four Month's Discharges At the Boston and Maine Wharf

The coal business the past few months, has certainly been brisk, as far as the railroad docks are concerned. From January 1 to May 15, over 133,000 tons were unloaded at the Boston and Maine wharf, with very little of this amount going into the coal pocket.

STAYING OUT, NIGHTS

Locomotives Cannot Get in Their Stalls During Repairs

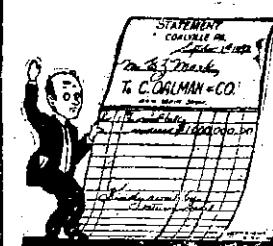

During the extensive repairs and the installation of a new turntable at the Boston and Maine round house, all the locomotives that are quartered there by day and night are now obliged to remain out over night and are set on the different side tracks about the yard.

DOG MONEY COMING SLOW

The dog business in the way of licenses is far behind that of last year. Up to today 223 canines have been given permits to remain around safely for another year as long as they behave themselves.

This time a year ago the necessary certificates had been issued for 263 of the animals.

COAL POCKETS

CONTRACT LET

The building of the big concrete coal pocket for the Portsmouth Coal Company, has been awarded to Alfred Suck, of Hyde Park, Mass., one of the best builders of the country. Mr. Suck was selected among twenty or more noted builders who came from Philadelphia, Cincinnati, Boston, New York, Portland and Baltimore, and presented plans and figures on the building.

The structure will be a sectional affair, from which cars and carts can be loaded with astonishing quickness. The building will require a little more wharf room and it is understood that the present wharf will be somewhat enlarged for the pocket. Compared in size with the wooden pocket now on the railroad property, it will be about the same size.

The work will be started as soon as the wharf can be completely cleared of its buildings.

The contractor, Mr. Suck, has previously done work here and it was he who got out the plans of the building of the former Portsmouth Machine Company.
